# DAFFODILS

AND

# IRISES

*for Your Garden*

A list including  
many choice and new offerings  
available for spring and  
summer planting

**1943**

**S. S. BERRY**

1145 West Highland Avenue      Redlands, California

Try this garden for many lovely novelties not obtainable  
elsewhere

# FOREWORD

The war must still rule thoughts and condition acts, hence once more I ask your contentment with the tersest of price lists and your wait for a complete descriptive catalogue until times of lesser strain have come again. I urge its none the less careful perusal, however, for the omission of puffing does not mean that its offerings have suffered in quality. On the contrary the discriminating gardner will find endless temptations, for this is in fact my very best list to date. Amongst the daffodils you will find not only an excellent selection of the magnificent productions, both well tested and new, which have come to us from the British Isles, but also an appreciably augmented series received from our honored Pacific allies, Australia and New Zealand, where artistry with anther and stigma of the daffodil as of the rose has been attended by much originality and an abundance of charm.

Selection and propagation of seedlings for 1943 introduction was greatly interfered with last year by illness, so only three new irises are here included. One of these is a smartly beruffled cavalier from Mrs. Nancy Shank's Corona garden which all beholders covet. One is a smooth, tall ivory-yellow, the third a tough-growing but very winsome hybrid Apogon of most unusual parentage raised by myself.

Please note the very reasonable prices for such daffodils as BOKHARA, COPPER BOWL, CORNISH FIRE, CRUSADER, DAMSON, FORTUNE, FRICKLESTIN V. C., JEAN HOOD, LANARTH, LITTLE JOHN, MILITANT, PEERLESS, and such beautiful irises as BLUE DEEP, BROCADE, DAYSPRING, MOHAVE, MOONGOLD, MORELLO, PRIDE OF REDLANDS, TEMESCAL, TOURMALINE and VANGUARD.

I am always glad to make up special collections on order, where the customer is undecided how best to choose for himself, giving due attention where possible to color preferences and to whether it is intended to cover a long season or plant for a period of shorter but more abundant bloom.

EASTERN CUSTOMERS WILL FIND OUR ABILITY TO SHIP BOTH IRISES AND DAFFODILS BY EARLY SUMMER AN INESTIMABLE ADVANTAGE, GIVING THE PLANTS AN EXTRA LONG PERIOD OF ROOT-GROWTH BEFORE THE ONSET OF WINTER.

## DAFFODILS

### TRUMPETS

(Yellow)			
Aerolite .....	each \$ .20	King Arthur .....	.35

Monspeliensis .....6 for	.50	Viridiflorus .....	5.00
Moonshine .....	.25	White Jasmine .....	1.00
Mrs. John Bodger .....	2.00		

COLLECTION—3 bulbs each of 10 selected varieties, a splendid value, for \$5.50 postpaid. MIXTURE of seedling daffodils of various types, \$1.00 per doz., carriage extra.

IMPORTANT NOTE—The majority of my daffodils are replanted within a few weeks of digging. Orders should therefore be early to avoid disappointment, especially for the rarer items. I would appreciate your suggestion of an acceptable substitution or two in the event your order finds me sold out of some item.

## IRISES

### OUR OWN INTRODUCTIONS

(Originated in this garden except as noted)

ACROPOLIS (1929) each...\$	.75	CONFUSA (introd. 1927).....	.75

PRIDE OF REDLANDS (1936) .....	1.50		

### NEW INTRODUCTIONS FOR 1943

**HAMADRYAD (1943)**—A dainty Apogon most unusual in its coloring of soft lavender on a cream ground; my best result to date from the use of Asiatic ensata on our Californian native douglasiana, and believed to be the first successful hybrid of this parentage; rather difficult to move, but very tough and sturdy once it gets going; a joy for cutting; 1½ ft. ....\$10.00

**KINDLY LIGHT (1943)**—A lovely smooth ivory-yellow iris with a deeper throat, borne on slender well-branched stems; charming in garden effect, though the flowers are a little small for the height; an F2 seedling from Colonial on Purissima; 4 ft. ....\$10.00

**SIR WALTER (Shank 1943)**—A large, spreading, crisply ruffled, deep blue-lavender iris, gallantly borne on tall upright stems; though not novel in color, this is a very fine and effective plant; 4 ft. ....\$10.00

### GENERAL LIST

Nerine, Pink Beauty .....	5.00	Dittany of Crete, each .....	.75
Scilla campanulata, Blue Bird,			
per doz. ....	.75		

Our garden is not a large one, nor grandly landscaped, but it contains its full quota of rare and interesting plants, and those who will but remember that it is simply a horticultural workshop and do not expect too much of it otherwise, are always welcome visitors. In addition to our innumerable daffodils and irises, which form a collection not easily surpassed, we grow various species of Moraea and Nerine, a very fair array of freesias and Hemerocallis, and divers odds and ends of small bulbs, rock plants, peonies, herbs and other perennials. Late spring and early summer and again in the fall are in general the most favorable times to secure stock for planting, but to view the flowers our spring months are best, February and March for daffodils and April to May for irises. Do not, however, look for any signboard at the garden beyond the street-number, for even at the cost of some business, we are devoted believers in the slogan,

KEEP THE LANDSCAPE BEAUTIFUL!
